

Adarsh G

Software Developer

✉ its.adarshg15@gmail.com ☎ 7806835440 📍 Chennai, India 🌐 adarshg-098 🔄 Adarsh G

👤 PROFILE

Detail-oriented software developer pursuing **B.E. in Computer Science** with a strong foundation in **Java, Data Structures & Algorithms, and Web Technologies**. Passionate about building scalable solutions and eager to contribute to innovative projects while continuously learning and growing.

📁 PROJECTS

Real-time Walkie Talkie Application 🔗

Developed a wireless communication tool using Socket Programming and JavaScript.
Engineered digital signal conversion for one-way audio transmission and real-time playback.

GPS Location Tracking System 🔗

A real-time GPS tracking application that simulates device movement and visualizes it on an interactive map.

Library Management System 🔗

The **Library Management System** is a web-based application developed using **JSP, JDBC, and MySQL**. It helps manage library operations such as adding books, issuing books, returning books, and managing users.
The system reduces manual work and improves efficiency and accuracy in maintaining library records.

GreenBite - UI/UX Project 🔗

Designed a complete UI/UX prototype for **GreenBite**, a food ordering application, as part of a GUVI project. Created interactive screens covering home, menu browsing, food item details, cart, and order checkout.

Tactile Vision

Tactile-Vision solves a real problem that 285 million people face — the inability to read privately. Every existing solution either announces your content to the room via Text-to-Speech, requires expensive Braille hardware costing lakhs, or only works on digital screens. Tactile-Vision works on printed menus, medicine labels, books — anything — silently, on a phone you already own.

🎓 EDUCATION

B E COMPUTER SCIENCE AND ENGINEERING

Prince Shri Venkateshwara Padmavathy Engineering College
07/2023 – Present | Ponmar - Chennai

Higher Secondary Education

Zion Matriculation Higher Secondary School
06/2010 – 06/2022 | Selaiyur - Chennai

🧠 SKILLS

Technical Skills

- **Languages:** Java, C, C++
- **Web Development:** HTML CSS Javascript Spring Boot Hibernate ORM
- **Database Management:** MySQL and JDBC integration.
- **Version Control:** Git, GitHub.
- **Spoken Languages:** English, Tamil.

🏢 WORK EXPERIENCE

Founder & Lead Developer | OKOK Tech

03/2026 – Present | Chennai

- Founded and managed a freelance digital studio specializing in custom web solutions and UI/UX design.
- Oversaw end-to-end project lifecycles, from initial client consultation and wireframing to deployment and SEO optimization.
- Managed technical infrastructure, including nameserver configuration and hosting for client site launches.

Lab Inventory System

Agile Assembly

The lab inventory system allocates the system for the students based on their barcode ID; it ensures student attendance in lab activities. *Tech Used:* HTML, Tailwind CSS, JavaScript

Smart Attention System 🔗

Agile Assembly

Smart Attention System – AI-Powered Facial Recognition Attendance

Tech Stack: Python, OpenCV, face_recognition, Streamlit, Pandas, NumPy

Built an AI-powered attendance management system that uses real-time facial recognition to automate attendance tracking. The system allows user enrollment by capturing and storing face encodings via webcam, automatically detects and matches faces during attendance sessions, and logs entries with timestamps.

📄 CERTIFICATES

- Hadoop 101 🔗
- Introduction to Apache Spark 🔗
- Meta: Introduction to FrontEnd 🔗
- Oracle Data Platform 2025 Certified Foundations Associate 🔗
- Software Engineer - Hackerrank 🔗
- Meta: Programming in JavaScript 🔗
- Java Certification - GeeksForGeeks 🔗
- IBM - Introduction to Git & GitHub 🔗
- GUVI Mastering FIGMA - Beginner to Expert 🔗

🤝 VOLUNTEERING

Rotaract Club

President

07/2025 – Present

Rotaract Club

Associate Community Service Director

2024 – 07/2025
